Due to Rebtel's new offer, one can now call the Philippines from the U.S. at the cheapest rates possible. The rates from Rebtel are the best and are

considerably lower than the best calling cards available in the market. Today, one can call from any phone, anywhere, any time day or night with Rebtel's new plan and take advantage of their slashed rates.

Hjalmar Winbladh, co-founder and president of Rebtel said: "Use your

mobile. Use a pay phone. We don't care. The rates are the same. And the best part is with Rebtel you only pay for the minutes you use. No sign up fees. No contracts. No connection charges, surcharges or minute rounding.

Rebtel is considered by many to be the people's global communications company. The company periodically comes out with innovative plans and strategies to allow its customers to experience the best possible service at the most affordable rates. The new reduced prices to the Philippines is just one of their new strategies.

Rebtel can currently be used with any mobile phone and does not require any modification or software downloads. Rebtel does not require any change to customers' existing plans with their mobile operator. There is no charge to set up a Rebtel account. What is even more exciting is the fact that all newcomers get a free 10 minute call to test the service. After which, customers only pay for the minutes they use.

Winbladh went on to say that "No one in their right mind uses their mobile carrier to make calls from the US to the Philippines - the rates are ridiculous. And everyone knows that calling cards are a rip-off. Its common knowledge that they only deliver 60 percent of the minutes they promise and that fraudulent phone cards are costing consumers in the U.S. alone more than \$1 million a day. That's why everyone keeps trying new ones in the hope of finding an honest card." Well, forget it. Just switch to Rebtel."
