### About Likwid

Likwid is a new interactive puzzle game, where you hold the key to unlock the music. Likwid challenges you to a new way of problem solving, all in an environment filled with beautiful graphics and music you know and love.

Experience premium songs by many famous artists like you've never experienced them before. Hear the songs slowly unfold as each track is released from the collectors.

The streams are your muses; an inspiration for artistic creation. Guide the streams down the right path and you can free the music that lies within. Unite sound and vision and master the game.

#### HOW TO PLAY:

The main objective of the game is to fill targets, called 'Collectors'. There are various types of tools called 'Affectors' that can change the direction, speed and color of the streams. When a Collector is filled with the stream an individual track will play. Once you have filled all collectors the entire song will play and the puzzle is solved advancing the player to the next puzzle.

#### KEEP THE EXPERIENCE GOING:

Once you have completed all the levels, more levels await you in the Likwid Store. New artists and level packs will be added weekly, so you can decide just how deeply involved in the experience you'd like to get. Each level pack features new custom art, new music and new challenges.
